Attention : Shareholders, Directors and Community Members

January 25, 2021

I am pleased to announce that after 16 months without a contract, we have a new contract with Canfor. A contract to supply men and equipment to assist with a log reload at mile 118 on the Alaska Highway has been signed. The contract starts Jan 30, 2021 and ends October 1, 2021 with a possible extension and significant increase in volume handled.

We will have (2) 880 Tiger Cat log loaders as well as (2) 966M wheel loaders on site. The initial contract will likely only require one Tiger Cat and one 966M wheel loader.

Rick and Randy Hansen both long term employees with Six Nations Ventures have come on board again and we are thankful for that. Both proven equipment operators during our contracts with Peace Valley OSB.

Other than log handling, our duties will include snow removal and sanding. Our 2011 chev service truck will be used to transport operator and fuel to the site. Our 2016 F-350 flat deck is equipped with sander and will be used to transport operator and sand the site and access to site.

The wisdom of our directors has paid off. The directors voted to keep the necessary equipment to operate a log yard and now we are getting that opportunity and we have the perfect equipment line up to service this contract. I thank the directors for their continued support and participation in making Six Nations Ventures a successful company that is guided by treating employees, managers and customers with dignity and respect. We look forward to working with Canfor now and well into the future. Above all we thank Canfor for this opportunity.

Darrel Leahy

General Manager
